

60 mm Cable Entry Grommet

Architect / joiner specification sheet — solid brass & solid aluminium

Drop-in cable grommet for a standard 60 mm desk or benchtop cutout. Two machined parts: flanged outer + removable insert with cable slot. No screws, clips, or multi-part extrusions. Designed and made in Melbourne.

Key dimensions

Desk cutout	60 mm
Barrel OD	59.5 mm
Flange OD / outer	65.5 mm
ID / clear bore	53.5 mm
Height under flange	18 mm (overall incl. 2 mm flange)
Barrel depth below flange	16 mm
Flange thickness	2 mm
Insert	57 / 53 mm
Cable slot	12 mm
Chamfer	1 mm 45° / 0.5 mm 45°
Fit	Drop-in (outer + removable insert)

Materials & finishes

Solid brass — machined from solid brass stock; smooth polished face; expected quieter patina with use (not plated zinc).
Solid aluminium — machined from solid aluminium stock; cooler tone; same machining and drop-in fit as brass.
Finishes: as-machined / polished metal. No paint or plating to wear through.

Ordering

One-offs and volume both available — brass, aluminium, or a sample pair (one of each). Trade accounts for approved ABN buyers. Ships from Melbourne; usually within 1–3 business days. Postage at checkout.
